## Technical Architecture

**G.O.L.D. Topase** is integrated into the companies IT system, and establishes full information exchange.

**G.O.L.D. Topase** is totally integrated to **G.O.L.D. Central**.

**G.O.L.D. Topase** can be used simultaneously in several languages.

Aldata Solution S.A. has recently acquired the Topase software solution and will extend the replenishment, forecasting and planning functions of **G.O.L.D.**

Over the past 13 years, the **Topase** solution has been deployed over a great number of IT sites. Nearly 8 billion euros of annual purchases are optimised thanks to the application software. Since its creation, **G.O.L.D. Topase** has gained all the equipment markets of warehouses of the retail and distribution companies in France.
